

MICHAEL VICTOR

Frontend Engineer

radmakson@gmail.com | github.com/yourmix0x | yourmix0x.dev

PROFESSIONAL SUMMARY

Frontend Engineer with 4+ years building production web applications across e-commerce, fintech, and Web3. Specialized in React, Next.js, and TypeScript with full-stack capabilities in Node.js, MongoDB, and Stripe. Delivered products serving 500+ users with focus on performance, clean API integration, and smart contract development.

EXPERIENCE

Frontend Engineer, **Nexorà** May 2025 – Present

- Led frontend development of *SalvageYard*, a full e-commerce marketplace covering buyer/seller flows, product listings, and integrated payments.
- Delivered multiple client projects to specification with strong satisfaction ratings, cutting revision cycles by 50% through proactive communication and scoped delivery.
- Collaborated closely with backend engineers to design clean API contracts, ensuring performant and reliable data flows across product surfaces.

Frontend Engineer, **PineApp Solutions** August 2025 – December 2025

- Fixed critical bugs and shipped new features across existing client products, improving application stability and meeting CEO/PM delivery requirements.
- Partnered with the Team lead to optimize UI flows and component performance, improving estimated user experience metrics by 60%.

Frontend Lead, **Nel Professionals** (Contract) July 2025 – October 2025

- Architected and co-built a two-sided platform for clients and professionals, covering account creation, proposal workflows, milestone funding, and automated project transitions.
- Integrated **Stripe Identity** and **Stripe Cards** to enforce KYC verification and secure job posting reducing fraudulent attempts by an estimated 70%.
- Built an admin dashboard for managing users, jobs, payouts, and platform operations, improving operational visibility and issue resolution speed.

Tech Lead / Software Engineer, **Aquaorg** (Part-time) December 2022 – September 2025

- Developed the scholarship waitlist platform that onboarded **500+ users** within the first rollout.
- Implemented core software systems across frontend and backend, reducing operational overhead by an estimated 40% and speeding up development cycles by 60%.
- Owned architecture decisions, deployments, and feature delivery end-to-end across the product lifecycle.

FEATURED PROJECTS

Personal Website: www.yourmix0x.dev (for more projects).

Nel Professionals — nelprofessional.com

- Two-sided marketplace for clients and professionals with account creation, proposal workflows, milestone funding, Stripe Identity KYC, payment linking, and automated project state transitions.
- **Tech:** Next.js, TypeScript, Stripe.js, Tailwind CSS, Figma, REST API

SalvageYard (via Nexorà)

- E-commerce platform with buyer/seller flows, product listings, and integrated payments. Contributed core feature delivery and API-driven data flows.
- **Tech:** Next.js, TypeScript, Tailwind CSS, REST API Integration

SKILLS

Languages: JavaScript, TypeScript, Solidity, HTML5, CSS3

Frontend: React.js, Next.js, Tailwind CSS, React Native, Redux, Zustand

Backend & Tooling: Node.js, MongoDB, Firebase, Docker, Git, Vite, Webpack, Turborepo, CI/CD pipelines

Web3: Solidity, smart contract development, Web3 integration, Viem, Ethers.js

EDUCATION

Federal University of Technology Akure, NG. June 2023 - August 2027

Bachelor of Technology in Remote Sensing and Geoscience Information System

Relevant Courses: Remote Sensing Principles, Algorithms and Data Structures, Programming Fundamentals
